EDUCATION

Honours Bachelor of Technology - Software Development

Seneca Polytechnic of Applied Arts and Technology

Sept 2021 – Present

Toronto, ON

Computer Programmer Diploma

Lambton College

Sept 2020 – April 2021

Mississauga

TECHNICAL PROJECTS

Metropolitan-Museum-of-Art

Independently developed a robust Web API using Express and Node.js, facilitating efficient data management and enhancing the museum's online presence. Utilized Next.js for the front end and integrated a MongoDB database to create a modern, responsive website that improved user engagement and provided a dynamic online experience for museum visitors.

Ticket Kart

The vision for TicketKart is to provide a reliable, efficient, and user-friendly platform for concert promoters and customers, enabling them to seamlessly manage events, sell and purchase tickets, and select preferred seats. Comprehensive solution includes the ability to add venue information, making TicketKart the go-to platform for all concert-related needs. My goal is to make TicketKart the most trusted and preferred ticket sales system in the market.

Portfolio

Leveraged Reacts component-based architecture to develop a dynamic, responsive UI for a portfolio website, ensuring seamless user experience across various devices. Employed React.js best practices for creating modular, reusable components, coupled with individual CSS files for effective style management. Enhanced the application's performance and intuitiveness using React Hooks and crafted a personalized user journey with interactive elements like Download Link and Contact ME. Maintained a clean, efficient codebase, adhering to industry standards for readability and maintainability.

Currently working on developing a website under the name of Ardent Coders (Ongoing)

As a passionate and experienced coder, I have always sought to share my knowledge and expertise with others. While I previously uploaded my codes on a blogpost, I am now driven by a desire to help others overcome any challenges they may face in the field of coding. By leveraging my skills, I am confident that I can make a positive impact on the lives of those seeking to improve their coding abilities, and I look forward to bringing my passion for teaching and mentoring to the team.

Work Experience

Manager – Brar's Eat and Sweets (Rutherford rd Vaughan unit 43&44)

March 2021 – Present

- Effectively managed a dynamic team of 20 individuals, providing leadership, guidance, and support to enhance performance.
- Oversaw all aspects of restaurant operations, ensuring seamless day-to-day activities and maintaining high standards of service.
- Applied strong research and problem-solving skills to address operational challenges, resulting in enhanced efficiency and customer satisfaction.
- Successfully led and participated in various projects, showcasing adept project management abilities both within a team and individually.
- Demonstrated a detail-oriented approach in creating accurate and punctual reports, contributing to the precision of business documentation.
- Delivered impactful presentations, leveraging effective communication skills to convey key information and insights.
